### **Acapella *Apollon* loudspeakers**

**\$180,000**

Acapella Audio Arts has been building loudspeakers and audio electronics in Germany for forty years. The inventors of the spherical horn, Acapella recently introduced their proprietary hyperspherical horn, which supports outstanding sonic integration and ease of placement in listening rooms. The *Apollon* are born from a pure love of music, presented with a true sense of scale.

91 inches tall. About 700 lbs. Sensitivity: 96 dB. Impedance: 6-8 ohms. Bass drivers: 6 x 10 inch. Horn loaded midrange. Acapella's incomparable TW1s ION (plasma) tweeter.

### **Acapella integrated amplifier**

**\$135,000**

Musical and authoritative hybrid integrated amplifier.

Voltage amplification with Valve (E182CC) initial gain stage and MOSFET output stage. Compact, carefully thought out layout with short signal paths and very closely matched components. Silver wire in the signal path. Transformer coupled balanced inputs and outputs. About 2K wpc.

### **Acapella *Audio One* music server**

**\$8000**

Now in production. Using its own internal DAC, a very good value. Also a superb transport for a reference level DAC.

2TB Samsung SSD. Ethernet in, S/PDIF and analog RCA outputs.

### **Audio Note UK *DAC Five Signature***

**\$119,689**

Classic Level Five converter, silver wired everywhere: custom Audio Note silver wired output transformer on 0.1 AN-Perma 50 double C-cores, silver wired I/V interface matching transformers. Valve regulated power supply. Transformer coupled balanced outputs.

### **Cabling from Acapella and Audio Note UK**

Acapella's *Authentic Line* interconnect, loudspeaker and power cables.

Solid silver conductors. Ceramic insulated.

Audio Note's *SOOTTO* (silver) power cables.

### **HRS *MXR* Equipment Stand**

**frame, orig \$22K**

### **HRS *M3X2* Isolation Bases**

**shelves, \$3695 each**

The MXR (no longer in production) is Harmonic Resolution Systems' previous flagship equipment stand, designed for optimum isolation base performance. Ours has a premium automotive finish in gloss black. Interested in owning this very one? Please inquire. Reference level M3x2 bases used as shelves are optimized for individual electronics.
